Please Note: Our Breast Care Nurse is routinely present during most clinical consultations. Please advise us prior to going in to your consultation if you would prefer a breast care nurse not to be present.

The Breast Centre at St Vincent's Private Hospital East Melbourne Policies

- This practice is committed to ensuring high-level privacy for all personal health information including photographic records, collected, used and disclosed in the course of effective patient care. During this process, both collection and sharing of health information with other medical and allied health professionals may be necessary. This may include, for patients with a breast cancer diagnosis, entry of de-identified data into the BreastSurgANZ Quality Audit Database, sharing of your contact details with BCNA (Breast Care Network Australia) to order your "My Journey Kit", a specially designed package of information for Australians diagnosed with breast cancer) and case discussion at our weekly "Breast Centre" Multidisciplinary Team Meeting.
- I consent that clinical photographs be taken of me if required. I understand that these photographs form an essential part of my medical record, as well as my preoperative and postoperative assessment. I understand and consent to my photographs being used for medical research, teaching and or patient education purposes. I understand that I will not be identified by name in any such use of these photographs, nor will my identity be recognisable.
- "The Breast Centre at St Vincent's Private Hospital East Melbourne" has a policy of informed financial consent and should you subsequently be booked for an operation, you will prior to any procedure be provided with a written estimate/quote clearly stating any out-of-pocket expenses. Proceeding with surgery after having received a written estimate of the surgical fee will be taken as informed financial consent.
- I authorise this medical practice to electronically transmit claims for Medicare benefits to the Department of Human Services, and in the case of inpatient claims, for the Department of Human Services to on forward the claim details to my nominated health fund on my behalf.
- Should my health information be required for purposes other than those listed above, I understand that my further consent will be required. A copy of the 'The Breast Centre's Privacy Policy' is available upon request.

The Breast Centre Fee Policy

The Medicare Rebate for an outpatient service is 85% of the Schedule Fee. The "gap" between the amount charged and this 85% rebate is not covered by your private health insurance for outpatient services and therefore a financial obligation on yourself arises and you will face an "out -of-pocket" charge. Medicare benefits levels are fixed arbitrarily by the federal government and benefit levels have not kept pace with inflation, the costs of running a practice and medical indemnity, thereby progressively widening the gap between reasonable fees and Medicare benefits. The fees charged by "The Breast Centre" have been determined after careful study and investigation of practice costs and other relevant and material circumstances, and are considered as being fair, reasonable and appropriate for the services provided.

		Charge (\$)	Medicare Rebate (85% of schedule fee)
Initial Consultation	Standard	250	72.75
	Second Opinion	340	72.75
Review Consultation	Standard Review	130	36.55
	Long-term follow up	150	36.55

Fees are payable on the day of consultation.

- If your consultation is prolonged, an additional charge at a pro-rata rate will be incurred.
- An additional charge will be made for any diagnostic services or procedures (eg ultrasound scan, needle biopsy, cyst aspiration) performed during your consultation. A full price list is available upon request.
- X-rays and pathology tests, if required, will be performed by other independent practices and you will be charged separately for those services.
- If you are re-referred by your GP following discharge from this practice, a "new/initial" consultation will be charged.
- Cancellations on the day of appointment may incur a \$50 cancellation fee.

I have read and agree to the above policies.
