**PLEASE NOTE:**

The "RAPID ACCESS APPOINTMENTS FORM" is for the use of self-funders and those with private health insurance only. "The Breast Centre at St Vincent's Private Hospital East Melbourne" is a private breast service, and as such we are able to provide rapid access appointments only for patients who are either self-funders, and who intend to have their breast cancer treatment within the private sector and those with private health insurance. Patients who intend to undergo their treatment in the public sector are not advantaged by being seen initially in private, and it in fact slows the process. As Jane O'Brien no longer has a public hospital appointment, she is not in a position to see uninsured patients who do not intend to self-fund their breast cancer treatment, and these patients are advised that the process is in their case best streamlined by obtaining a referral from their GP to be seen in a public hospital breast clinic.
