

National Breast Cancer Audit: List of Participating Surgeons

August 2007

Below are the surgeons who have ever contributed data to the National Breast Cancer Audit. This list has been made available, in part to publicly acknowledge the contribution of these surgeons to this quality improvement activity and also to provide a list which can be referenced by consumers when choosing a surgeon.

The list shows surgeons who are *Full Members* of the Breast Section of the College, for whom participation is mandatory as part of their membership, *Voluntary Participants* who may represent Associate Members of the Breast Section and general surgeons. *Retired or Inactive* surgeons are those who have contributed data in the past and are now retired from practice or no longer involved in the surgical treatment of breast cancer. The membership information in this list is based on breast audit records obtained on 1st August 2007 and does not include surgeons who requested their name not be displayed.
